

ADS-B Out Integrity Testing

with ADS-B INTEGRITY™ app

for R&D, System Integration and Factory

Cobham AvComm

On January 1, 2020, per Advisory Circular (AC) 20-165B, when operating in the airspace designated in 14 CFR § 91.225 all aircraft must be equipped with ADS-B Out avionics that meet the performance requirements of 14 CFR §91.227.

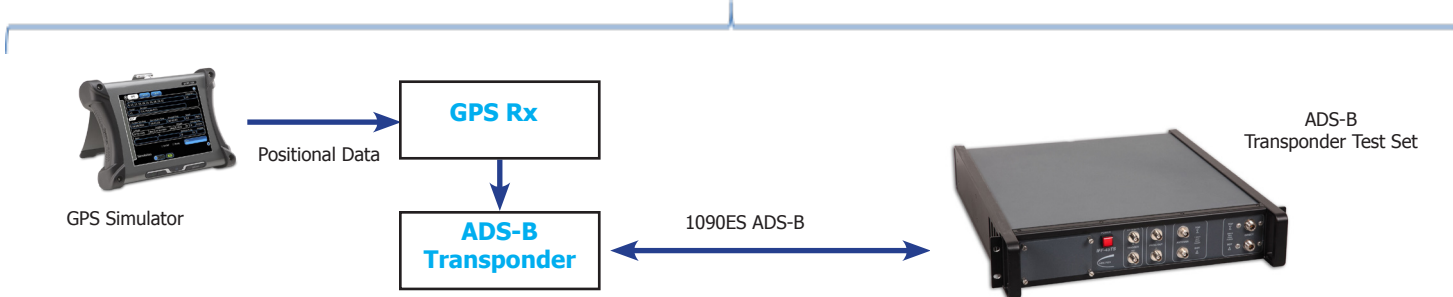

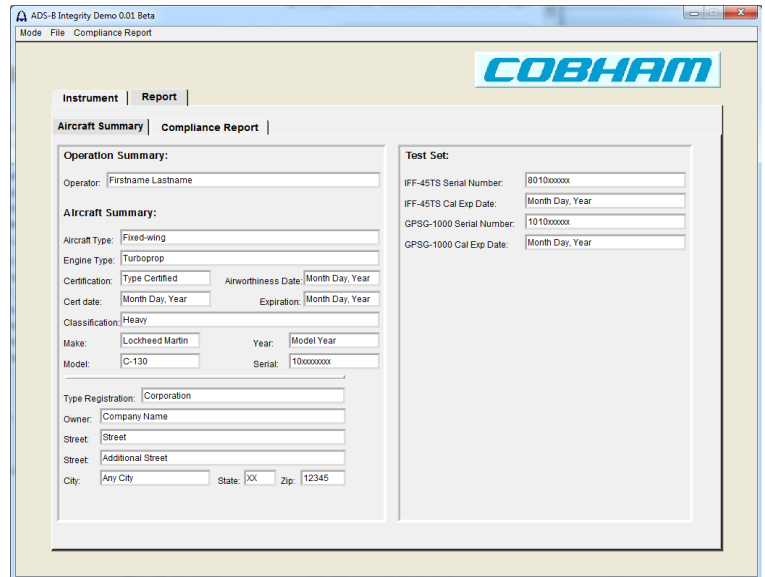

ADS-B INTEGRITY™, Cobham AvComm’s new ADS-B Out Integrity Test Application, with an easy to use graphical user interface (GUI), provides dynamic positional data and data logging for easy testing of positional accuracy. This fast and convenient solution will provide comprehensive reporting for support of AC 20-165, including dynamic test data contained within the FAA Operational Compliance Report.

Required test equipment:

- ADS-B INTEGRITY™ app
- IFF-45TS MK XIIA/TACAN Bench Test Set
- GPSG-1000 Portable Satellite Simulator

Customer supplied PC or optional IFF-45TS controller

Benefits

- Easy to use GUI
- Comprehensive test solution
- Positional accuracy vs. time
- Instantaneous Positional Latency
- Advisory Circular 20-165B Compliance
- ADS-B Aircraft Operation Compliance Report
- Utilization of existing assets
- PC app includes necessary cabling

Positional data and resultant latency

Compliance Reporting with Pass/Fail Criteria
